NARR/(U) Ref A is U.S. Indo-Pacific Command (USINDOPACOM) General Administration Message (GENADMIN) providing guidance on Personnel Recovery (PR) Theater Entry Requirements (TER). Ref B is USINDOPACOM Instruction 0503.1, Personnel Recovery. Ref C is DOD Directive (DODD) 3002.01, Personnel Recovery in the DOD, incorporating change 1. Ref D is Chairman of the Joint Chiefs of Staff (CJCS) Instruction (CJCSI) 3270.01C, Personnel Recovery. Ref E is CJCS Manual (CJCSM) 3500.09, Joint Standards for Survival, Evasion, Resistance, and Escape (SERE) Education and Training in Support of the Code of Conduct and Principles of Behavior. Ref F is DOD Instruction (DODI) 1322.32, Pre-deployment Training and Theater Entry Requirements. Ref G is DODI 3002.05, Personnel Recovery Education and Training. Ref H is DODI 3002.02, Personnel Recovery and 406 MHz Search and Rescue (SAR) Emergency Beacons in the Department of Defense, incorporating change 1. Ref I is Joint Publication (JP) 3-50, Personnel Recovery // ORDTYPE/GENADMIN/ CDRUSINDOPACOM// TIMEZONE/W//

NARR/(U) Mod 01 to the USINDOPACOM GENADMIN providing guidance on PR TER standardizes Isolated Personnel Report (ISOPREP) completion requirements and SERE training requirements for theater entry and intra-theater travel.
Mod 01 cancels and supersedes Ref A, and provides updated PR TER guidance. //GENTEXT/ REMARKS/

1. (U) SITUATION.

1.A. (U) Ref D requires Geographic Combatant Commands (GCC) to develop, publish, and enforce PR TERS. To better articulate the requirements and preserve the integrity of the ISOPREP and SERE training requirements, USINDOPACOM PR TER have been revised. PR TER will be submitted to the U.S. Air Force executive agent for the DOD Foreign Clearance Guide (FCG) program.

1.B. (U) Applicability. PR TER applies to all U.S. military, DOD civilians, and DOD-sponsored contractors authorized to accompany the force (CAAF) (hereafter DoD personnel) on official travel (either temporary duty [TDY] or permanent duty assigned) within the USINDOPACOM area of responsibility (AOR) excluding Hawaii, Alaska, Guam, American Samoa, and any other U.S. territories, possessions, compact states, or protectorates.

UNCLASSIFIED

UNCLASSIFIED

1.B.1. (U) PR TER must be completed before deployment or assignment into the USINDOPACOM AOR.

1.B.2. (U) PR TER are not required for the following:

1.B.2.a. (U) DOD-sponsored contractors not designated CAAF, unless the terms of contract require compliance with PR TER.

1.B.2.b. (U) DOD personnel on unofficial travel (leave or pass).

1.B.3. (U) USINDOPACOM PR TER are intended to outline the minimum requirements. Services and functional components may place more restrictive requirements based on mission, area of operation, and/or risk.

1.C. (U) DOD personnel must review the country-specific PR requirements for selected areas of travel within the DOD FCG prior to departure. Certain countries within the AOR have additional PR requirements regardless of individual level of training. Consult the DOD FCG online at www.fcg.pentagon.smil.mil or www.fcg.pentagon.mil//

2. (U) ISOPREP.

2.A. (U) REQUIREMENT.

2.A.1. (U) All DOD personnel on official travel who have completed level C SERE education and training, either previously or as part of their current assignment, will maintain a digital ISOPREP in the Personnel Recovery Mission Software (PRMS) database. Level C trained personnel are identified as high risk of isolation and must maintain an ISOPREP regardless of location.

2.A.1.a. (U) DOD personnel assigned to the USINDOPACOM AOR who are determined by their service or commander, based on their military specialty or mission, to be at high risk of isolation and/or exploitation value shall update/review their ISOPREP within three (03) months of arrival to the theater.

2.A.1.b. (U) After the initial ISOPREP review, it is deemed valid for 36 months unless another authority directs an earlier review. Thereafter, the ISOPREP must be reviewed every 36 months.

2.A.2. (U) Fingerprints are not required.

2.A.3. (U) Pictures are required.

2.B. (U) INSTRUCTIONS.

2.B.1. (U) The ISOPREP can be completed/submitted via the SIPR or NIPR PRMS web application.

UNCLASSIFIED

UNCLASSIFIED

2.B.2. (U) The ISOPREP can only be reviewed on the SIPR PRMS web application.

2.C. (U) ISOPREP COMPLETION.

2.C.2. (U) Option 1: Log in or create a PRMS SIPR account at:
<https://prmsglobal.prms.af.smil.mil>.

2.C.1. (U) Option 2: Contact organizational PR office and/or ISOPREP manager to assist in the creation/update/review of the ISOPREP.

2.C.2. (U) Option 3: Create an ISOPREP through PRMS with a common access card on NIPR via the pre-OCONUS travel file (pro-file) at:
<https://prmsglobal.prms.af.mil/prmsconv/profile/survey/start.aspx>.

2.C.2.a. (U) PRMS computer based training slides are located on the PRMS homepage and serve as a guide in account and ISOPREP creation processes.

2.C.2.b. (U) For Special Operations Forces (SOF) personnel, select "click Here for SOCOM and SOF" on the PRMS home page. If assignment shifts from SOF to conventional, contact the PRMS helpdesk to have the ISOPREP transferred to the right database.

2.C.3. (U) Refer all computer/website issues to the PRMS helpdesk at commercial +1-586-239-3701, DSN: 312-273-3701, email NIPR: 127.wg.prms.mail.org@us.af.mil, email SIPR: usaf.mi.127-Wg.mbx.prmsmail@mail.smil.mil //

3. (U) SERE EDUCATION AND TRAINING.

3.A. (U) REQUIREMENT.

3.A.1. (U) Per Ref G, the minimum code of conduct (COC) training requirement is completion of SERE Level A training. Upon completion, the individual is considered current for 36 months. Personnel entering USINDOPACOM must remain current throughout the duration of their assignment/deployment. Countdown for the 36-month requirement begins the day after last SERE course completion.

3.A.2. (U) DOD personnel maintaining SERE Level B or C do not require Completion of Level A SERE education and training. Annotate the date SERE Level C was last accomplished in lieu of the SERE Level A date requirement in the Aircraft and Personnel Automated Clearance System (APACS).

3.A.3. (U) Personnel who have completed service-designated SERE training, joint Level B/C training, or refresher training that exceeds Level A requirements are considered current for 36 months from the date of training.

UNCLASSIFIED

UNCLASSIFIED

3.A.4. (U) Personnel who have completed specialized SERE training (e.g. SERE 211/215/400) in addition to service SERE Level B/C requirements are considered current for 36 months from the date of training.

3.A.5. (U) For services without SERE Level B/C, or specialized SERE refresher programs, SERE Level A (sere 100.2 or service equivalent) satisfies the refresher requirement.

3.A.6. (U) Personnel who are determined by their commander, based on their role or mission, to be at high risk of isolation/exploitation will be required to complete service Level B/C SERE education and training or specialized SERE training.

3.B. (U) ADDITIONAL INFORMATION.

3.B.1. (U) The Level A SERE course, SERE 100.2, may be accessed on Joint Knowledge Online (JKO).

3.B.2. (U) Course title: j3ta-us1329 SERE 100.2 Level A SERE Education and Training in Support of the Code of Conduct.

3.B.2.a. (U) JKO NIPR: <https://jkodirect.jten.mil>.

3.B.2.b. (U) JKO SIPR: <https://jkolms.jten.smil.mil>.

3.B.3. (U) Once course is launched, uniformed personnel must select the 'military' option and DOD civilian personnel (civilians and CAAF) must select the 'civilian' option.

3.B.4. (U) For service Level A equivalents, contact your unit training manager.

4. (U) 406 MEGAHERTZ (MHz) EMERGENCY LOCATOR BEACONS. While not a specific PR entry requirement, per Ref H, all DOD 406 MHz emergency beacons must be registered in the Joint Search and Rescue Satellite Aided Tracking (SARSAT) Electronic Tracking System (JSETS). This includes Emergency Locator Transmitters (ELT), Personal Locator Beacons (PLB), Emergency Position Indicator Radio Beacons (EPIRB), and survival radios with SARSAT capability such as the Combat Survivor Evader Locator (CSEL). Units should contact their corresponding component Common Operation Picture (COP) managers and schedule a test to ensure Friendly Force Tracking (FFT) devices correctly populate on their headquarters' COP management tools. Any beacon purchased for and utilized by DOD covered personnel for SAR and PR applications, including commercial-off-the-shelf (COTS) devices, must be registered in the JSETS database prior to use in the USINDOPACOM AOR. Registration ensures recovery support nodes/elements are able to account for, and track, the beacon's signal based on a unique identifier. For each beacon, a beacon type, serial number, and beacon identification (ID) (Hand Held Radio ID [HHRID] or 15 character hexadecimal [HEX] ID) must be stored in the JSETS database, along with 24-hour unit contact information. Each beacon can be linked to an agency, vehicle, and/or unit. If a beacon is transferred to another unit, the registration information must be updated. JSETS can be accessed at <https://prmsglobal.prms.af.mil/>
